IN THE NAME OF ALLAH MOST BENIFICIENT AND MOST MERCIFULL

بسم اللہ الرحمٰن الرحیم

إِنَّ اللَّهَ وَمَلَائِكَتَهُ يُصَلُّونَ عَلَى النَّبِيِّ ۚ يَا أَيُّهَا الَّذِينَ آمَنُوا
صَلُّوا عَلَيْهِ وَسَلِّمُوا تَسْلِيمًا ﴿٥٦﴾

اللہ تعالیٰ کے نام سے شروع جو بخشش کرنے والا مہربان ہے۔

اللہ تعالیٰ اور اس کے فرشتے اس نبی (صلی اللہ علیہ والہ وسلم) پر درود بھیجتے ہیں
اے ایمان والو! ان پر درود بھیجو اور اچھی طرح سلام بھی بھیجتے رہا
کرو۔

(سورۃ الاحزاب ۳۳)

AUTHOR: SAGHEER AHMED

Dedicated to all those persons (men, woman, and eunuch), who are thirsty of true knowledge

Contents:

1. **Faith**
2. **Habit of learning/thirsty of knowledge**
3. **Negation of rigidity/Politeness**
4. **Words v/s Actions**
5. **Money and character**
6. **Theory of replacement**
7. **Discipline of life**
8. **Awareness of right and wrong**
9. **Communication**
10. **Self-control**
11. **Learning from past**
12. **Concept of accountability**
13. **Mortal v/s Non-mortal**
14. **Choice of words**
15. **Emotional Intelligence**
16. **Knowledge and knowledgeable person**
17. **Role of hilal diet**
18. **Role of technology**
19. **Study about hormones**
20. **Role of daily planning (Dominos theory)**
21. **Learning from mistakes**
22. **Negative effect of rumor philosophy**
23. **Law of attraction**
24. **Break the pattern**
25. **Economic policy of yourself**
26. **Role of tongue**
27. **Choice of path**
28. **Role of friends' company**
29. **How destroy time and money**
30. **General bad habits**
31. **Aggressive Behavior**

32.Aim of life
33.Habit of repetition
34.Importance of time and health
35.Local to global bad habits
36.Best way of teaching
37.About will
38.2 + 2 = 4
39.Comparison is the theft of joy
40.Human with commitment

INTRODUCTION:

I begin with the name of Allah (Taala) who is alone worthy of worship and we all the witness that Muhammad (S.A.W) is his last prophet and messenger.

For a long time, I had a wish to collect forty (40) hadiths on a particular topic because I have read somewhere that when a man collects 40 hadiths on any particular topic, he will go in heaven so from that day my soul became restless…, there were many topics to select from but I always find some work on them at-last with the satisfaction/blessing of Allah (Taala)) I finalized a topic that is:

"Human personality development by the serat(personality/character) of Holy Prophet Muhammad (S.A.W) and the holy Quran."

After selection of topic the issue was the choice of material then by the grace of Allah (Taala) it resolves then came the issue of the reading and taking out the point and then the last stage to give it, the form of book which the grace of Allah completed. I hope that may Allah forgive any mistakes and accept my struggle. It is not possible that there is the mentioning of Prophet (S.A.W) and I do not write anything. Prophet (S.A.W) the practical form of Holy Quran. We can write book on his life; we can write a book on Prophet (S.A.W) hadith. It is to be noted that if a man leaves Arab before 23 years and eventually, he comes back after 23 years and revisits the places where Prophet (S.A.W) has brought revolution, he would be shocked to the changes in the life, behavior, actions, communication, speed, character and other matters of the people he left. Women, men, old, children, streets, markets gathering and trade all were changed. Their behaviors, matters, interests, and business everything was changed. A new institute by the name of mosque was made in every street and community where people can acquire religious education. Popularity of preaching of Allah and Prophet, Quranic gatherings, debates on educational interests, discussing war in the name of Allah (Jehad-e-fesabililah) inspite of war, wazaif inspite of gossiping, five time prayer on the behalf of free time and abolition and pious religious gathering, weekly debates on national and global problems every Friday, justice in balancing and weighing equality and brotherhood among people, neither the pride of race nor

of community, no superiority on basis of tongue and colour. All humans are the people of Allah (Taala), he is the only creator and there is like him.

My Prophet (S.A.W) was such a miraculous personality that the society of fake and lie now become honest, fulfilling the duty of promising, clarity in give and take, pity of God and fear of God, nor the stations of vulgarity nor uncovertness and nor shamelessness, nor vulgarity in gathering and nor the vulgar myths of Iran and toran, nor boasting on stories of forefathers neither self-pride. The biggest name is of Allah and following the teachings of His prophet Muhammad (S.A.W) was declared the superior cause of action.

Millions of praises for my Prophet (S.A.W) everywhere there were rules and regulations, there was Judiciary and crime was almost to finished. If someone did a mistake either he apologizes to the opponent or confess his crime in court. Judiciary was equal to all from Caliph to common man, there was no discrimination.

Our parents are devoting of Prophet (S.A.W). Shopkeepers were frightened of Allah (Subhana wa taala), illegal storage was vanished; no question of selling low quantity goods. In case the customer has defected goods then to reached their home and tell them about defect of goods. The feelings of affection and passion for education and humbleness in old, element of respect for old and to learn from them in younger labor were more conscious than owner in doing work and in the same way the owner was conscious to give the right of labor first. Soldiers were full of Jehad-e-fesabililah and for him to fight for the establishment of religion is superior to any other blessings. People were conscious about their neighbors that he must not sleep hungry, not be disturbed because of him. All the society and people were totally changed as if they were the new inhabitants. Every human has the feelings of responsibility, answerable in front of Allah (Subhana wa taala), honest and the feeling of full filling duty and the whole society was changed.

Verse of naat:

وہ نبیوں میں رحمت لقب پانے والا
مرادیں غریبوں کی بر لانے والا

The life of my Prophet (S.A.W) is so complete, that is difficult for me to stop at any point but I was supposed to stop at 40 points. I want to write something if reader do not mind. Journey of Taif,…,yes the worst situation faced by Prophet (S.A.W) in Taif which also made Almighty furious. Angels of mountains to which Prophet (S.A.W) to press them in between two mountains to which Prophet (S.A.W) replied: ***No, I believe that Almighty will raise a generation from them who will only worship Almighty Allah and will not consider anyone His partner.***

(Sahi Bukhari)

My Prophet (S.A.W) had a great vision but the lesson in it for us is that we should keep on spreading knowledge because we never know which home can give rise to a scholar, and leave the rest on Allah.

Similarly, as at another point **prophet (S.A.W) said:**

"In the prayer in which knowledge is not include, there is not goodness in it and in the knowledge where wise should not be and the qirat where not be solution so there is no goodness in it." (**Darumi)**

And today we can see its practical condition that a prayer empty of knowledge is leading to astray. In the same way the knowledge, without wisdom becomes a burden on society it is surely an evil. Without planning or solution recitation can bring you towards evil. Although people practicing it, think themselves superior to others which is absolutely wrong.

Prophet (S.A.W) said that:

"In front of scholars do not talk aimlessly otherwise they will get offended. Do not talk higher to lack of knowledgeable person otherwise he will mock you. The

person who is illegible to knowledge does not keep him away from it. Do not talk illiterate otherwise he will call you illiterate. Either it knowledge or wealth both have rights."**(Darumi)**

In the above noted hadith is the best principle of communication which means to show your knowledge to the people first know their personality, profession and rank only then you will be successful.

My Prophet (S.A.W) said a so beautiful quote on marketing which is:

"Both the people have right of sale and buy till they do no separate hence they both speak truth and tell the right thing about sale means if there would be defect so inform before. If they tell initially then barkat get included in their goods or if they hide so its omit." **(Sahi Bukhari/Sahi Muslim)**

In the above noted hadith points the quality of character which is transparency in marketing that always selling of goods should be based on truth and this is now included in the law of many countries. If you lie in your business then not only your business will be destroyed but also people will no longer trust you.

My Prophet (S.A.W) said that:

"The conversation I left so let me live (means do not ask me about that) because the people before you has destroyed by this thing they asked many questions related to this and differ to their prophet, so the thing about which I stop you leave it and the thing I ordered you then try to follow that with full strength."**(Sahi Bukhari/Sahi Muslim)**

In the above noted hadith tells the quality of character which is called **'Art of questioning'** yes! Today students do not know the art of questioning, question is asked when we do not understand wither the starting or ending of question, there are some students who have their answers in their mind and they just want to conform them.

Prophet (S.A.W) promises that:

***"No one can be Momin till the time when he does not like the thing for his brother what for himself."*(Sahi Bukhari/Sahi Muslim)**

In above noted hadith highlights the character which is that we should not discriminate the people due to this pride and ego will develop, which are evil qualities. To get rid of this bad habit follow this hadith which means you should select the same thing for your brother which you select for yourself, then your ego will disappear.

At another place Prophet (S.A.W) said that:

***"The biggest and dangerous shirk is Asghar and that is show off (mean to do good work only to show off),…(*Ahmed)**

In the above noted hadith tells the quality of character which I have understood while teaching **"Habits' changing program"**, yes! To help others only for the sake of Allah(Subhana wa taala), human is the compound of many mistakes, if someone works only to impress someone which is almost impossible. Therefore, at some point he would have to face disappointment.

"Therefore, we should do all work only and only for the sake of Allah"

I want to just write, write, and write,…,want to discuss the life of Prophet (S.A.W) but I also know that my Prophet used to briefly. He liked to talk briefly, he used to make the prayer precise because of old man and woman therefore we have to take care of readers. Although, the life of our Prophet (S.A.W) has all the ingredients, to spend successful life.

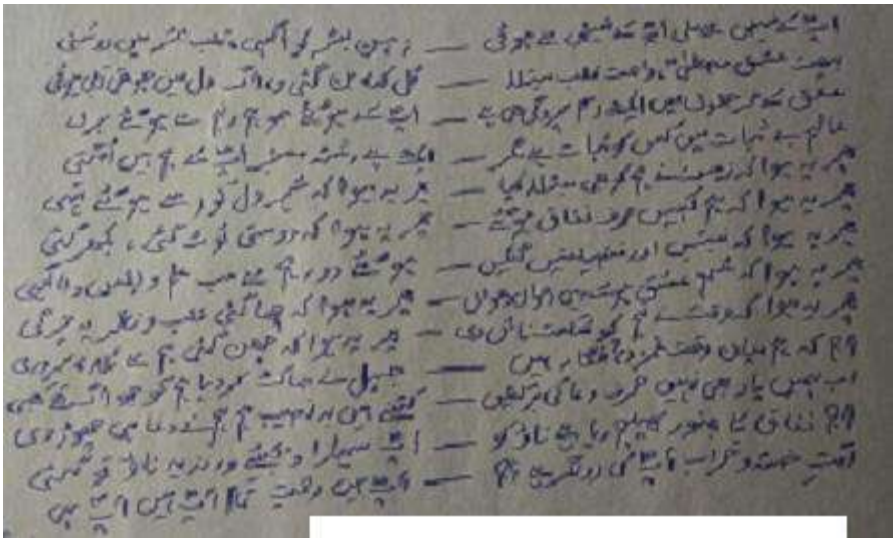
As Hazrat Aisha said that:

"The life of our Prophet (S.A.W) was according to the Holy Quran"

Many philosophers came in who were champions of speech but not the champions of character, the education he has given they did not have the command on that but it was the quality of Prophet (S.A.W) that whatever he

taught he practiced it first and set the best example for humanity so that the life of Prophet (S.A.W) could have deep effect on the heart and mind.

Naat by Pir zaida qasim:



Yes! It is the result of not following the life of Prophet (S.A.W) that we are in this situation. Today we find excuses in shariat. The life of the followers of Prophet (S.A.W) was when they were told by the Prophet (S.A.W) not to talk higher than the pitch of Prophet they started to speak slowly and in whisper, and the people who naturally had high pitch started crying in fear of losing their good deeds.

When the order on prohibition of wine was establish within few hours wine was removed from the whole empire,…,when the order of veil descended then every adult woman got covered,…

When Hazarat Abu Bakar Sadiq (R.A) became the caliph, he used to weep and wished of being a bird that so that he could fly away from the responsibilities of ummat-e-muhammadi, and wished of being a grass so that he could be burned and not be answerable before Allah. When someone come to caliph and presented him honey and he cried in fear of being attracted to the world,,when

Amer-ul-momines (R.A) had the fear of pride so when he reached on the pulpit he said:

"Omar it is you the same who used to graze his aunt's goats"

Hazrat Ali (R.A) used to fist spread his hand on his beard and weep by saying:

"O world! I have divorced you, stay away from me because your beginning

Is sweet but your end is devastating."

In the last sermon, the Prophet (S.A.W) asked his followers, 'which month is this?'

Followers replied: The Prophet (S.A.W) of Allah knows better,…

Then Prophet (S.A.W) asked 'what day is today?'

Followers replied, the Prophet (S.A.W) of Allah knows better,…

Best example of respect,…,we have becomes disrespectful and reluctant, therefore dishonoured.I pray to Allah subhana taallah that we all may follow the life of prophet (S.A.W) as the followers were followed the life of Prophet (S.A.W)

Ameen! Ameen! Ameen…

Thirsty for pray,…

Beggar for pray,….

Sagheer Ahmed

HUMAN PERSONALITY DEVELOPMENT BY THE CHARACTER (SERAT) OF OUR HOLY PROPHET MUHAMMAD (S.A.W) AND THE HOLY QURAN

1- Faith:

"Prophet Muhammad (S.A.W) quoted that foundation of Islam is based on five things and pronounced that Islam is an avowal and an action and it upraises and declines too,…"

Hazrat Ali (R.A) is asked by someone about the faith then he replied that:

"Faith is a belief of heart, affirmation/acceptance of tongue and performing by an action of vital organs."

Faith plays a vital role in Personality Development, but majority does not know the correct definition of it. On the above noted statement I want to put the light and define/explain it as:

"Actually, faith is a specific state of brain/mind according to specific event, specific thing, specific person,… "

I will try to explain the above statement by various following examples:

- Muslims believe that eating forbidden where as many people eat it,…
- One woman hides her whole body while another considers it good to wear the shortest clothes.
- Boldness of some families, considered as immorality by others,…
- Somewhere cow is worshipped and some where it is used as a part of diet

These are few examples; if you look on your surroundings then you will find a lot of these kinds of similar situations or information. These are actually the states of your faith, means these are the dimension/categories or some portion of your brain which incline you to do these actions.

Now we came across on how to build the "Right faith". It has two ways or paths:

- To learn from any professional.
- To learn from the books of scholars.

To adopt the first way (professional) gather as much information as possible about that, acknowledge the faith of his trained people, if you are satisfied with them, then you can improve your faith under his guidance.

If you are not satisfied your with the above mentioned way/path then you have to adopt the second way/path, it means you have to study to faith of all the professionals of all continents to find out their way for making faith and by that, you have to correct your method of faith.

2-HABIT OF LEARNING OR QUEST FOR KNOWLEDGE:

Prophet (S.A.W) says that:

"THE WISE SAYING OR WISDOM'S KNOWLEDGE IS THE LOST PROPERTY OF THE BELIEVERS,SO WHEREVER HE FINDS IT THEN HE HAS A RIGHT TO IT."

Sunan Al-tirmazi kitab-ul-ilm

In above noted Hadith that quality of character has been highlighted according to which we should not fully restrict or bound ourselves when pursuing knowledge. For instance, if one says that he will acquire knowledge from the person who has beard and not from haven person, acquire knowledge from this cult and not from that cult. Acquire from this country and not from that country, acquire from this religious man and not from that religious man,…,according to my Psychological education tells that a person who lives in the state of 'if and but' firstly, he could not acquire knowledge, secondly he is at increased risk of developing schizophrenia.

3-NEGATION OF RIGIDITY (HABIT OF POLITENESS):

Our holy Prophet Muhammad (S.A.W) said:

"He who does not thank people is also unthankful to Allah"

Above noted Hadith points to the quality of character according to which the stein person could not acquire closeness of Allah. You must have seen that some people consider it bad to take advice from a women, if they do not like to take advice than now come they will be thankful, they are not thankful towards children, and people of lower status,…, conditions due to this a psychological develops (which is also seen in pride and arrogance) in which he considers in him the qualities of Lord and that is the initial step towards the 'polar disease'.

4-WORDS V/S ACTIONS:

"Do you call the people towards goodness and welfare/betterment (and give them reflection and repeat it) and forget your own self!"

--Al-Quran

"Don't be a burden on Muslim (society) by becoming non-practicing."

--Saying of Holy Prophet

Above noted verse is the beautiful verse of Holy Quran which points to the quality of character according to which you could never be successful if there is contradiction between your words and actions. If there is contradiction between words and actions of a person then he develops the habit of deception, so in psychological term we can say that he starts is think negatively, continues to torture himself and soon he becomes anxiety patient.

5-MONEY AND CHARACTER:

"(Distraction is for the person) who saved the money and kept it by counting and counting. He thinks that his money will give him benefit."

Al-Quran:surah Al-Hamza 2-3

Muhammad (S.A.W) promises that:

"Killed (or dead) the person, who is the person of dinar and dirham."

In above noted Qurani verse and noted hadith it is highlighted that money is necessity of life but not life and if you consider it as life and spend your day and night to save it, then you will neglect all the other affairs of life, you will develop lust for money which is psychological disease,…

6-REPLACEMENT THEORY:

"You get away badness to the goodness, which is the best,"

--Al-Quran

In the above noted verse points to the quality of character according to which never simply end of any bad habit instead replace it with the good habit. If you don't do that then more bad habit will take place of it(probability 80%). If you will not adopt this theory it would be difficult for you leave bad habits. If you ever want to leave them/this by force then psychological you will be disturbed and frustrated,…

7-DISCIPLINE OF LIFE:

Muhammad (S.A.W) promises that,

"Very nonsense is the person who destroyed his end for making others world."

Above noted Hadith tells the quality of character which is that we should always spend life according to holy principle, if you get astray from holy principle in the love of someone, then definitely you face loss and loss would be so much that at some point you will be fed up from your life and will suffer due to depression or might be you inclined towards suicide.

8-AWARENESS OF RIGHT AND WRONG:

"O Muslims! You all say repentance/penitence together and it is expected to get success"

(Al-Noor 31)

Muhammad (S.A.W) promises that:

"A repenter is the beloved of Allah and the person who does repentance from the sin is as that he (is pious) has done no sin ever."

In above noted Holy Quran verse and hadith signifies the quality of a character which is that whatever work you do be sure of its being good or bad, so that if you know you are mistaken you can repent to Allah (Almighty). Due to this, firstly your faith on Allah will become stronger, secondly whenever you will return back to life, it would be with the positive approach,…and the person who does not adopt this consider himself the lord which is a condition of polar disease.

9-COMMUNICATION:

Muhammad (S.A.W) promises that:

"Communicate with the people according to their rank,…"

(Muslim Sharif 4/1)

In above noted hadith signifies the quality of character according to which we what should know the collection of words and how to present them.For example,you will talk differently to an educated men and women, differently todirection,to ruler, to governor, to public and to an emplyee.If you do not talk to them according to their level of approach they won't be able to understand. If you will talk to educated man it will be different, with director, with rich man, with lord and with public or servant it will be different instances should be according to their rank then they will understand it easily, For example, explaining with the help of Quantum theory to a plumber is of no use likewise explaining (who has little knowledge) same as if you explain the chemist about electrical so he will not get it,…, the person who talks according to above-quoted hadith is considered mature and the one who does not is considered immature.

10-SELF CONTROL:

"O people! Those who brought faith, fasting is to assume/to suppose upon you as it was to assumed before your previous prophets' followers, it is expected that you may have found the quality of piety." **(Al-Baqara 83)**

In Hazrat Abdullah bin Omar's tradition Prophet (S.A.W) promises that:

"Fasting and Holy Quran entreaty the slave fasting says O Lord! I stop them from eating and lust so, you accept my source in his favor, Holy Quran says that (O Lord!) I stop him from sleeping in night, so accept my source in his favors, and hence accept my entreaty in favors of both,…"

In the above quoted hadith and verse highlights the quality of character, which is the best example of self-control, before from today I was feeling difficulty to do self-control exercise but from the day when I studied/related the properties of fasting to the properties of character, then I realized/understand why it is necessary/suggested to fasting once a week to control your "self" hence if you want to seek control over yourself make sure to adopt this habit otherwise yourself will roam you around.

11-LEARNING FROM PAST:

Prophet Muhammad (S.A.W) promises that,

"And lucky and successful is the one/person who learn from others"

Above noted hadith points the quality of character that foolish person do experiments while a wise learns from the experience of others hence we should read the biographies of people so that we can learn from their experiences.

12-ACCOUNTABILITY CONCEPT:

"Those who do not believe in the Day of Judgment are those who get astray"

-**Al-Mamnoon 74**

Above noted verse tells/points towards the quality of character according to which not only a person but nations are either made or destroyed, therefore whenever doing good or bad we should keep in mind that we will be held accountable for that , hence while we are doing good or bad work, we should remember this thing that we are answerable some or the other day. If we do not believe in accountability then not only there will be destruction of our character but also of community.

13-MORTAL V/S NON-MORTAL:

"This money and children are only the worldly facility. In real remaining goodness is the best fruit from your lord and from him we can expect good hopes,…"

-Al-Kahaf:46

"Allah subhantaAllah did not see to your bodies or faces rather he sees to your hearts and actions."

-Sahih-Muslim

In above quoted verse and hadith can be understood by realizing that. In today's world, make-up industry is on number 01 or number 02.we spend on our physical beauty beyond imagination and on the other-side the things that make our life it like action with knowledge has been kept aside, there are no libraries in our houses, reading habits are getting fade. So, for making character it necessary to consider it…

14-CHOICE OF WORDS:

"O Prophet! This is the blessing of Allah that you are humble to those people, if you would be rigid or hard by nature then people take distance to you,…"

-Al-Imran:159

Prophet Muhammad (S.A.W) words that:

"To meet with your visitor with open hearted and happy face is Alms."

-Tirmizi/Mashqot

In above noted verses and hadith tells a quality of character is highlighted that makes our life easier and beautiful,it tells us about our behavior while communicating with people, the conclusion of my family counseling life is that if we can make our communication better and polite then 80% of the issues can be

resolved same like that, if all the people will correct their behaviour then whole society will become be better and beautiful.

15-CONTROL ON EMOTION:

"Those who tolerate their anger and forgive the people,…"

-**Al-Imran:134**

Prophet(S.A.W) said that:

"The person who is deprived from the softness of heart and sympathy is as he is deprived from all to all the good"

-Tibrani

In above noted verse and hadith tell us the quality of character, which has been highlighted, is actually a solution of psychological disease. A person who gets angry without reason or remains in anger for a longer time will definitely have a raised B.P and if he does not have soft heart, sympathy for others and the ability to forgive then he must be suffering from the initial stage of mania. Therefore, to make our character strong we need to work on above mentioned quality.

16-KNOWLEDGE AND KNOWLEDGEABLE PERSON:

"You say to them does knowledgeable and unknowledgeable could be equal."

-Al-jadilah:11

Prophet (S.A.W) said that:

"To get knowledge is the duty of every Muslim (man and woman)."

-Sunan Ibn-Majid

The above noted hadith and verse the quality of character which is highlighted is the attainment of knowledge and the level of knowledge,…,it is impossible for a knowledgeable and unknowledgeable person to be equal. It is impossible for a person who does not know the Quantum theory to solve the complex Quantum

equation, a person who did not get surgical education can do heart surgery. Therefore my Prophet (S.A.W) said to make attainment of get knowledge our duty , because as in life others duties are important it is also important,…,From 24 years of teaching experience I can say that a less knowledgeable person is has a low IQ/wit and is less understanding.

17-ROLE OF HILAL DIET:

Prophet (S.A.W) said that

"The search of hilal income is the biggest obligation after worship"

-Tibrani

In above noted hadith the quality of character which is highlighted can be accessed through the following example. In the countries where dog's meat is eaten there the new born baby open his eyes after seven days same as a puppy open his eyes in seven days,…,so you can get the idea from this that your diet or the things you purchase for your use greatly affects your personality. If you use haram then your work will become haram and its effect will surely appear on your character sooner or later …

18-ROLE OF TECHNOLOGY:

Prophet (S.A.W) said that:

"It is necessary for the wise person that he should be aware of the age"

Above noted hadith tells the quality of character which is actually the importance of education about modern technology often people could not come out from the past therefore they become a burden on themselves and also on society because up- coming age is the age of modern-to-modern technology. For instance today every problem can be solved with the help of I.T whether it is the treatment of dengue , electricity issue in Karachi or any complex operation, there is the use of I.T,like wise a person who does not know subjects like Game Theory, Expert System, Operational Research and does not comprehend 'Robotics' is left behind. You must change or upgrade yourself with the coming era.

19-STUDY ABOUT HORMONES:

“Did you see that man who dominated his respiration/vice so could you be protected/guard upon him?”

-Al-furqan:43

“The person who understand his vice, he understand the Allah”

-**Saying of Holy Prophet(S.A.W)**

The above noted verse and hadith signifies quality of character which is actually the study of hormones because 90% psychological patients are those whose hormones are disturbed, if someone roam around opposite gender unreasonably, without reason speak abusive language/slang words, do excess of shopping, do dance or watch dance all these are related with the disturbance of hormones therefore to improve your character we must to get hormonal education.

20-ROLE OF DAILY PLANING: (DOMINOZ THEORY) :

“He is not momin(orthodox) whose two days are same.”

-Saying of Holy Prophet(S.A.W)

The above noted hadith highlights the quality of character which is actually activeness the opposite of laziness, means Prophet (S.A.W) had explain this quality very beautifully that if you do not plan every next day, do not make it better than previous day then you are not rightful illegible to be called Momin. If you can put include this quality in your character then automatically you will complete all the steps to success.

21-LEARNING FROM MISTAKES:

“Momin do not sting to bite from one whole to twice.”

-Saying of Holy Prophet(S.A.W)

In the above noted hadith points towards the quality of character which is that you’re learning and analysis should be very good. Some-one has explained the

way that you may do many mistakes , millions of mistakes but remember not to do the same mistake twice,…,In this way your mistakes will be automatically reduced and your life will be simple and beautiful.

22-NEGATIVE EFFECT OF RUMOR PHILOSOPHY:

"It is enough for the liar person to listen the news and without investigation report it further.'

-Saying of Holy Prophet(S.A.W)

The above noted hadith signifies the quality of character that actually destroys families. You must have known that rumors start when a man spread the news without investigation, therefore in the light of above quoted hadith we should only forward those news that we may confirmed from authentic sources.

23-LAW OF ATTRACTION:

"***O you who believe! Avoid much suspicion; indeed some suspicions are sin."***

-Alhajrat:12

Prophet (S.A.W) promises that:

"To avoid from suspicious because suspicious talk is usually fake."

-Sahih Bukhari

Above noted hadith and verse signifies the quality of character which is to keep your thoughts positive because negative thoughts leads to negative actions. Psychology also says that if you because habitual of thinking negatively, your each and every work will be affected because your thoughts have a great impact on your life. I have read somewhere that if someone took your slipper from the mosque your first thought should be that he might have taken it by mistaken.

24-BREAK THE PATTERN:

Prophet (S.A.W) said that :

"When someone among you see that man who is superior in money or wealth or physically or in beauty (and because of this in his heart Greed and lust is develop) so he should see that man who is inferior in all these things (so that you develop the feeling of gratefulness)."

-Bukhari or Muslim

Above noted hadith actually defines the quality of character which in psychology is called "Break the pattern" means that if you even get under the influence of negative thoughts then immediately break the pattern by indulging yourself in positive thoughts by doing this you can never become schizophrenic.

25-ECONOMIC POLICY OR YOURSELF:

"…And those people (means Ibad-ur-rehman) why they extravagance (do spend Much) and do not get miser (even do not spend where necessary) either their issue is of temperance/level,…

-Al-furqan

Holy Prophet(S.A.W) said that

"Middling in expenses is half economy."

In the above noted hadith and verse points toward the quality of character which is economical policy of a person,we have witnessed people being extravagant or doing Tabzeer, means spending extra money unnecessarily like on dresses, likewise people spend money even where it is not allowed in Islam like on customs such as 'Mehndi' etc.Therefore one who does not adopt the habit of moderation is destroyed, on some occasion my Prophet (S.A.W) promises that :

"The thing which money I do not have, I did not brought that thing,…"

If you look closely on today's society the addiction of credit card has led to the increased burden of interest and due to this the people go beyond their limitation, many die as a debtor, thus by adopting the above mentioned quality of a character we can get rid of many economic troubles.

26-ROLE OF TONGUE:

"Salvation of Momin is in the protection of tongue."

-**Saying of Holy Prophet**

In the above noted hadith actually tells about one of the steps of communication that is the careful use of tongue,It is quoted in history about my Prophet (S.A.W) that :

"Prophet (S.A.W) talked only that at which prophet(S.A.W) get the future reward of virtue."

From above noted history it is clear extra and unnecessary conversation not only harms you it can also grade.

27-CHOICE OF PATH:

"And do not follow the thing of which you have not knowledge…"

-Al-Quran

"When you do not find the wisdom of Allah in any work then do not increase your thoughts (because you must be wrong)."

Hadith Nabvi(S.A.W)

In the above noted verse and hadith signifies the quality of character which is that we should get into any work of which we do not have the required knowledge because it is possible that you might suffer and that suffering could be of wealth, respect, fame and even your life. Hence educational Psychology says that every work should be planned either it is eating, bathing, or the construction of a bridge, each and every work including its advantages, disadvantages and the

challenges you might face, benefits, loses or complexities found in it. If you do like this then it is more likely that you may succeed.

28-ROLE OF FRIENDS' COMPANY:

"O! People who believe, you do not make your bosom friend except those who are believers."

-Al-imran:118

"Personality of man depends on the faith of his companions"

-Hadith Nabvi(S.A.W)

The above noted verse and hadith point towards the quality of character which is that 'a man is known by the company he keeps' which means a doctors' friends are doctors, engineers' friends are engineers, players' friends are players, gamblers' friends are gamblers and vagabonds' friends are the same, therefore make friends according to the character you want to develop and sit in their company. And the best company is the company of knowledgeable people.

29-HOW THE DESTROY TIME AND MONEY:

Prophet Muhammad (S.A.W) stood at the pulpit and spoke loudly:

"O! those People who accept the Islam from tongue not properly, to get embrace or to get reveal the defect of the Muslims people. Because it is the law of Allah that if someone follow the hide defects of Muslim brother and try to defame him then, Allah will follow his own defects and if Allah follow someone defect then he must be defame rather he would even inside the home"

The noted hadith highlights the quality of character which is that the time should not be wasted in finding and discussing the short-coming of people as it will not only waste but also put negativity in personality and it will dig out affection from the heart.

30-GENERAL BAD HABBITS:

"Allah (subhana wa ta'ala) does not like those who boast (Al-qasis:76)

"Allah (subhana wa ta'ala) does not like self obsessive and proudly person (Al-luqman:13)"

"Surely Allah (subhana wa ta'ala) does not like proudly or boaster people.(Al-Nisa:36)

Saying of Holy Prophet(S.A.W):

"Cheater, miser and the person who make realized his gratefulness will not go into heaven."

"You avoid to the disease of jealousy, jealousy finish the man's goodness as fire finish the wood."

-**Sunan-abe-dawod**

"Those are Allah's best people to whom after seeing we remember Allah and the worest people are those who do backbiting, put differences among the friends and those who get involve pious people in sin or in trouble or in anxiety."

-Masmad Ahmed

In the above noted verse and hadith actually tells the qualities of character that are directly related to personality and the person who has these habits could not be psychological fit, even according to my experience he could be physically unfit as well his vital organs will also get disturbed, therefore we all should restrain from above negative traits.

31-AGGRESSIVE BEHAVIOR:

Saying of Holy Prophet(S.A.W):

'To ride into life otherwise life will ride you"

In the above noted hadith tells the quality of character which is that don't let today's work on tomorrow, the work you have to do just start, If you waste one day so life will get you throw ten days back. Bring activeness, aggressiveness, passion in yourself otherwise you will only have excuses and explanations .When people around you will move forward than you, you will be left in depression today 4,5,6 years old children are making world records because they have passion. The moments you think of doing some work make your body move accordingly without wasting time.

32-AIM OF LIFE:

"Did you think that we born you without reasoning and you never come back to us?"

-Al-Noor 115

"Did you think that we born you without reasoning."

-Al-Momnoon:115

Hazrat Abdullah bin Masood narrated that Prophet Muhammad (S.A.W) said that on the Day of Judgment when a man will be presented before Allah, his feet will not move an inch until he is asked about the following five things after death:

1-He will be asked about his life and how he spent it.

2-The things he knew (got knowledge) how did he apply those actions.

3-About his wealth, how he acquired it, was it from that which is halaal or from that which is haraam?

4-His wealth, how he spent it. Did he give others their rights in it or did he squander it on himself alone?

5-His knowledge, how he acted upon it. How much of his knowledge he put into practice?

-Jamia Tarmizi

In the above noted verse and hadith points towards t the quality of character that is 'aim of life' it's been a long time since I am conducting the classes on personality development and I have not found anything more useful than this quality (Aim of life) in creating motivation. So if you want yourself to be motivated permanently then you must make an aim of your life because if you do not then you will easily get astray from your path.

33-HABIT OF REPETITION:

"Allah descend the best book the book which is together and in that again and again essays has been repeated"

-Al-Zamar: 23

Muhammad (S.A.W) promises that:

"You give education and to get easiness and do not into poverty, when get anger then become silent and when you get anger then become silent."

Muhammad (S.A.W) says that :

"Those who called Madina by the name of (yasrab) he asked forgiveness to Allah, he , is tabba , he is tabba,…"

In the above noted hadith and verse highlights the quality of character which can be understood by two ways: Firstly to make things a part of your character, repeat them over and over again to memorize it and it will be a part of your character Prophet Muhammad (S.A.W) also explained that sometimes we have to repeat things at the same moment so that it could be engraved in our character. In a nut shell, we should keep on repeating things otherwise it will be removed from our mind and character.

34-IMPORTANCE OF TIME AND HEALTH:

It was narrated from Hazrat Abdullah bin Abbas that Prophet (S.A.W) said that

"About Allah's two favors health and free time, some people get into illusion."

-Sahi Bukhari

In the above noted hadith points out the two main qualities of character first is health,….

As you all know that a 'healthy body' has a sound mind/healthy brain'. I will explain it further with examples. A person who is related to research should get its vitamin B-12 checked after every six months as its deficiency can cause lack of concentration,similarly TSH level isrelated to mood, Vitamin-D is related to depression,therefore keep in mind that good health is a blessing from Allah.Second is, 'Free time'; Ibn-e-khaldoom writes in muqadama-e-khaldoom,…

"Those people who do not plan their free time usually suffer"

One of its example is of children's summer vacations, those parents who plan them gets good result from their children while those parents who spend vacations without any planning remain disturbed.

Therefore, in the light of above noted hadith not only understand the importance of 'health and leisure/free time' but also make a part of your character.

35-LOCAL TO GLOBAL BAD HABBITS:

Muhammad (S.A.W) promises that:

- ***(i) When in the nation wickedness spread proclamingly that will involve in plague/pestilence and new disease.***
- ***(ii) The nations who do misbalancing in measurement, they suffer due to famine, difficulties and cruel ruler imposes on them.***
- ***(iii) The nation who do not pay Zaqat of wealth, they will involve in drought if there will not be cattle there would not be rain.***
- ***(iv) The nation who do not fulfill their promises so Almighty impose a stranger upon them and they snatch their amount/wealth.***
- ***(v) If their leaders and mentors will not obey the commandments of Almighty so they will find differences and civil war in among them***

-Abn-e-maja

In the above noted statements of my Prophet (S.A.W) actually explain the cumulative role and as we all know that a nation's cumulative role is based on an individual's role. As you can see that about our actions which can bring misery or suffering and vice versa. So wherever we find suffering there will also be short-comings in the characters of people. Therefore on and individual level get rid of we need to these shortcomings.

36-BEST WAY OF TEACHING:

"Indeed, in the messenger of Allah (Muhammad) you have a good example to follow for him"

--Holy Quran

Muhammad (S.A.W) promises that :

"If Jews or Nasrani got the invitation of my preaching thereafter they do not follow this so that man is the part of hell"

-Dar-e-Qati

In the above noted verse and hadith points out the quality of character which is that if ever you want to teach or learn then videos are better than notes and practical examples are better than videos. The life of Prophet Muhammad (S.A.W) is a perfect demonstration which can make our character beautiful. If you want to teach someone then explain by giving practical examples.

37-ABOUT WILL:

"Allah does not change the condition of the nation unless they do not change what is in their heart."

-Al-raud:11

"All the actions depend on the intentions."

-Saying of Holy Prophet(S.A.W)

In the above noted verse and hadith highlights the quality of character which is the will or strong intention, it is the basics of every course because if the learner does not have the will and is forced by family then he/she can never learn while on the contrary if he/she his/her own will and is eager then he/she can easily learn the most difficult course.

38- (2 + 2 = 4) :

"Reality is that Allah does not do tyranny on the people,…,people do tyranny on themselves…"

-Al-Younus:

"You face the hardship it is the outcome of your actions and now 'HE' forgive many things."

-Al-shurah:30

Muhammad (S.A.W) promises that:

"The person who believes, is in the category of highly rank and the people those who perform Nafli offer prayers in night and kept fasting in day time"

-Al-Daud

Hadith Nabvi (S.A.W) says that :

"Those who do mercy and have sympathy for the people Lord/Allah have blessing for them."

-Sunin abi Daud/Jama Turmizi

In the above noted verses and hadiths points towards the quality of character which is the miseries we face in our life are due to our deeds. Allah forgives our mistakes because he loves us 70 times more than a mother still we do not understand. Therefore to improve life and to adopt is quality we should look back on our mistakes in every misery or suffering.

The most important are ethics and humanity on which we have to work in order to stay away from suffering.

39-COMPARISION IS THE THEFT OF JOY:

Allah promises that:

"Do they keep jealousy to the people to whom Allah has given blessing and His bestowed on them…"

-Al-Nisa:54

Hazrat Abu Hurara narrated that Prophet (S.A.W) said:

"Avoid to jealousy, because jealousy finish goodness as fire finish wood,…"

-Abu Daud

In the above noted verse and hadith highlights the quality of character which is negatively comparing oneself with people while a positive comparison is permissiable like you think that he/she has more knowledge and you decide to work hard , he/she plays well, and you decide to practice more, on the other hand if he/she has jealous, for the instance if he/she thinks that why a particular person has a car, why he wears expensive dress therefore when a man gets into negative thoughts he/she get moves away from the positive thoughts and as a by-product he uses abuse languages and behavior due to which his goodness fadep.

40-Human with commitment:

"O that infidel to whom you did commitment and those who did not dis-commitment in their oath and neither have they helped against you. The oath is compulsory to fulfill to you till their commitment do not expire because Allah like pious people."

-Al toba:4

In the war of baddar muslims were in less members and they were in need of more men Huzifa-bin-Aliman and Abu haseed(R.A) two followers appeared before

Muhammad(S.A.W) and said that Prophet(S.A.W) we were coming from Makah, and were arrested on the way by unbelievers, they unbound us only on one condition that we will not be by your side in war but they commitment was made under pressure and we will be surely by your side Prophet Muhammad(S.A.W) said "Never, fulfill your faith and remove yourselves" from the field of battle. We (Muslims) will fulfill our promise in any condition; we only need the help of the Lord.'

-**Sahi Muslim**

Hazrat Abdullah –bin-Alhamad(R.A) states that before( ),I bought something from Prophet (S.A.W) some payment was left, I promised Prophet(S.A.W) that I will be back with money at the same place, but I forgot, after three days I recalled, I went there and found Prophet(S.A.W) was sitting at the same place. Prophet(S.A.W) then told me that he was waiting since three days,(narrated by Abu-Dauood).In this example Prophet(S.A.W) 's excels in the quality of Tawaze and fulfillment of oath.

-Madarj-al-nubwa

In above noted verse and hadith; the quality of character which is highlighted is 'fulfillment of faith' every man should understand that oath is not for passing time, It needs to be fulfilled and momin does not restrain from his oath but here we have the opposite, before elections numerous promises are made which are never fulfilled when you do not fulfill your promise, you break the trust of people and unfortunate is a man on whom one can trust.

In hadith once during the journey some followers decide to slaughter the goat and divided their work. One took the duty to slaughter, another to remove the skin, someone took the responsibility to cook, and Prophet (S.A.W) said that to collect the wood for cooking would be his responsibility. Followers said that prophet (S.A.W) we will do this by ourselves but prophet (S.A.W) said that 'I understand that you all will do it happily but I do not like being superior in the crowed and even Allah also don't like this.

-Fazal-e-Nabvi

In above noted hadith points towards the quality of character which is that to think yourself superior to others affects the character, it also causes get polar like Psychological disease therefore we should work like a group, I have read it somewhere that Prophet (S.A.W) said:

"One way to vanish pride and ego is to bring all the grocery of home,(but weak people cannot do it, should be helped)"

Prophet (S.A.W) addressed on the 10th Zilhaj and its last part is:

"Those who are present convey my message to those who are not. It is possible that the absent ones will make the most of it."

-Sahi Bukhari

In the above noted hadith signifies the quality of character which is that we should convey our messages to people because if the listener could not understand it due to any reason so due to this they may listen due to any reason so he will pass it on to his fellows and they may be benefited,so I am the witness of this when I gave my books for free to people and they kept it without reading then theirs relatives took it from them and they not only acted upon it but also started communicating with me.

Prophet (S.A.W) said that :

"The thing which put you in doubt, leave it and the thing which do not put you in doubt, adopt that, indeed satisfaction is in truth and a lie is killing."

In the above noted hadith point towards the quality of character which I have already mentioned that is schizophrenia which is a disease of having doubt, if you keep on suspecting then you can inside it get involved in this disease,…,therefore according to hadith we should stop suspecting. In this hadith we are also reminded that satisfaction is only in truth and the lie brings only disturbance.

It was narrated from Hazrat Abu Hurara(R.A) that Prophet(S.A.W) go near to some people, you Prophet(S.A.W) stop and said : Do I not tell you that who is good? Or

who is bad among you? All get silent, Prophet (S.A.W) tell this three time then a man said why not!, Prophet (S.A.W) you tell us who is good and bad among us, Prophet (S.A.W) replied the good one among you is to whom we expect goodness and he protect himself from evil and the bad among you is who do not do goodness and he protect himself from evil and the bad among you is who do not do goodness and do not protect himself from evil…"

-Jama Turmizi

In the above noted hadith signifies the quality of character which is that we should think that how people perceive us whether we are benefitting them or not.

Prophet (S.A.W) promises that :

"Every nation has sedition and our sedition is money."

In above noted hadith signifies the challenging things' test, which is money for our nation so whether we can get through this challenge or not because if there is less money their faith trembles and if there is more than enough they get astray. Therefore, we should keep an eye on this challenge.

A person come to Prophet (S.A.W) and said that give me some brief advise,

Prophet replied: O man! Listen carefully, when you intend to pray then keep this thought in your heart that you are saying good bye to all (as if you are going to die), do not take out those words on which you have to be sorry and answerable. Do not depend on other's money and do not expect from them only expect from the lord.

-Musnand Ahmed

In the above noted hadith tells the quality of character which is that when you look at past you cannot see the present, therefore, wherever you are keep your mind and soul alert so that you can take full advantage of that moment.

Another quality which is highlighted is that we should shop expecting from people. Someone has truly said that no man can deceive another only his

expectations deceive him. Only Allah can fulfill our expectations therefore we should expect from him alone

"upsetness is hopelessness and infidel"

In the above noted hadith actually tells the quality of character from which we should restrain as it is a state of brain in which either man becomes a Psychological patent or he attempts suicide. Hence the above hadith tells us that we should keep ourselves far from hopelessness because it is against Islam Therefore keep it in mind that whatever happens you cannot lose hope ***"Knowledge is gained by learning and can get by learning patience is gained by adopting."***

-Saying of Holy Prophet(S.A.W)

In the above noted hadith points towards the quality that there is a specific way of gaining a specified knowledge and there is no such thing as universal path on which we can walk and learn everything, so to learn anything understand its way and the difficulties you might face.

"What parents give to their children among that the best thing is good education/knowledge and nurturement"

-Saying of Holy Prophet(S.A.W)

In the above noted hadith tells the quality of character which is that good education and training are the essence of a child's character which means how to perceive things, how to dig out its meaning and then how to analyze it, disciplines of living, where anger is allowed and where it is not. The sum of these habits is called training.
